ELIGIBILITY FOR SERVICES

All full time students are eligible to be seen at the Health Services because the Health Services fee is included as part of their tuition. This fee supports medical, psychological, psychiatric, health promotion, and addiction services as well as some laboratory testing ordered at the Student Health Service.

There may be some out of pocket costs for students who are not enrolled in the University sponsored Student Health Insurance Plan (labs, immunizations, titers, etc.). Please contact the Health Services for pricing of these items.

Part-time students become eligible to use the Health Services by paying a one-time semester fee. Please contact Health Services for up to date information on fees. All fees can be paid at the Health Services by using debit cards, credit cards, RU Express, check or cash.

MEDICAL SERVICES

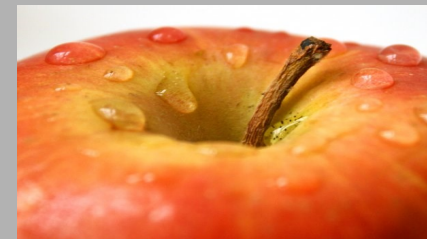

We are staffed by a physician, nurse practitioners, and a nurse. Our primary care services include preventive health care and routine medical care, such as physical exams, women's health, sexual health, sports medicine and chronic medical conditions.

Referrals for specialty consultations and care can be made when necessary
